PROFILE

Motivated and enthusiastic recent graduate with a passion for frontend development and a strong foundation in HTML, CSS, and JavaScript. Eager to leverage academic knowledge and hands-on projects to contribute to dynamic teams in building user-friendly and responsive web applications. Possesses excellent problem-solving skills.

PROJECTS

Portfolio Website

- Portfolio Web App Project allowed me to show case my skills and experience in a visually appealing and interactive manner. The Portfolio Web App served as a comprehensive representation of my professional profile, highlighting my achievements, Projects, and capabilities.

- By using Html , css, Javascript, Reactjs technology:
  Link: https://abhay2201-av.github.io/AV-PORTFOLIO/

Ecommerce Website

- The ecommerce web I developed serves as a comprehensive and user friendly platform for buying grocery,electronics,clothes. App is regularly updated to ensure the inclusion of the latest product and industry trends.

- By using Html, css , Javascript :
  Link : https://abhay2201-av.github.io/MartShoppes/

Weather Website

- The Weather Forecast Website is a responsive web application built using React.js that allows users to check the weather forecast for different locations worldwide. The website provides current weather conditions, including temperature, humidity, wind speed, and weather conditions such as clear, cloudy, rainy, or snowy.

- By using Html, css , Javascript, Reactjs :
